PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

25X1D

25X1D

This small regimental-size military installation covering approximately 67 acres is located 2 kilometers (km) east of Turka along the banks of the Stry River (Figure 1). The only training facility noted (Figures 2 and 3) was a possible athletic field. No training areas were found within a 15-km search area.

25X1D

This area was covered by KEYHOLE missions between [REDACTED]

The only change noted between [REDACTED] was the addition of a road from the road running through the installation to a ground scar alongside a steep hill. Scale and photographic quality preclude detailed interpretation, but this area (Area T) could be an underground facility. Three large storage buildings are also located off the main road and against this steep hill.

DESCRIPTION OF INSTALLATION

Road Service

The installation is served by good all-weather roads.

Administrative and Troop Housing Area

Area D contains two multistory, C-shaped administration buildings, barracks, one multistory barracks, two administration buildings, 10 storage buildings, three support buildings, and one guard building.

General Storage Area

Area E contains three storage buildings and is served by a road from the main administration area. The buildings back up to a steep hill.

Equipment Storage/Maintenance Area

Area J contains four motor vehicle storage buildings, one 270 by 40 feet, one 150 by 40 feet,

one 200 by 35 feet, and one 270 by 35 feet, two maintenance buildings, two support sheds, two storage buildings, and one possible building of an unknown type.

Athletic Field

Area K is possibly a soccer field.

Unidentified Facilities or Tracking Activity

Area T is a possible underground facility. A short road from the main highway ends at a clearing along a steep drop in the hill. The size and shape of the clearing indicate a possible area for trucks to stop and back up into the hill. The road and clearing were not present on [REDACTED] photography.
